#### OVERVIEW

Samueli Academy's teaching staff will have the unique and exciting opportunity to play a significant role in building the new charter high school from the ground up. Instruction features a 1:1 laptop program and is centered on Project/Problem-Based Learning, a collaborative, respectful culture, and an emphasis on 21st century skills. Samueli Academy teachers must have the ability to raise student achievement for a wide range of learners. There is a strong possibility that this teacher will collaborate in a "team-teaching," integrated environment with multiple teachers.

#### Basic Function

Using advanced technology skills in the classroom, this teacher's instructional practices should focus on raising achievement for a wide range of learners. Applicant must be a creative, collaborative, flexible teacher willing to innovate and implement Problem or Project-Based Learning. The applicant should have a willingness to explore team-teaching with other teachers, and to commit to working on collaborative teams. The applicant must have a thorough understanding of the Common-Core standards and the development of formative and summative assessment practices. All teachers at Samueli Academy will advise students in intra-class relations and in personal learning plan development through a weekly advisory program. Other duties as assigned by the Head of School. Please visit <http://samueliacademy.org/> for more details about the school.
