

HELP OUR STUDENTS PREPARE FOR THEIR FUTURES

Host a Samueli Academy intern at your company!

Samueli Academy, a free public charter high school located in Santa Ana, needs your help placing 120 community, underserved and foster teens in summer internships. Samueli Academy prepares students for future college and career success - offering them a unique educational opportunity that includes STEAM curriculum (Science, Technology, Engineering, Art and Math); project teams, and work-based learning.

After three years of rigorous, career-focused academic programs, Samueli Academy students are ready to thrive as an intern for your company! Before they begin their internship, students have experienced:

- Job shadowing and career mentoring
- Project-based learning
- Training on collaboration, communication, professionalism, and presentations
- Enhanced technology skills training

Students are exposed to high-tech aerospace manufacturing and engineering careers at ACRA Aerospace

Program Overview

- Minimum of 45 hours
- June 15 – July 30, 2016
- Paid or unpaid
- Receive dedicated support from internship Coordinator
- Comprehensive guide to hosting an intern for company

FREQUENTLY ASKED QUESTIONS

Q1. How old are the students who will be participating in the Internship Program?

The Internship Program occurs during the summer before a student's Senior year, so the students are between 15 and 18 years old.

Q2. Will a Samueli Academy representative be provided for contact?

Yes. Samueli Academy's Work-Based Learning Coordinator, Nyree Tramble, will visit each work site at least once during the internship, and be available by phone or email.

Q3. Is there any paperwork the company will need to complete?

Yes. Each company will sign the Internship Program Agreement for each intern. The agreement will list any expectations for the intern and the company.

Q4. Will the company have the ability to choose which students they would like to have as interns?

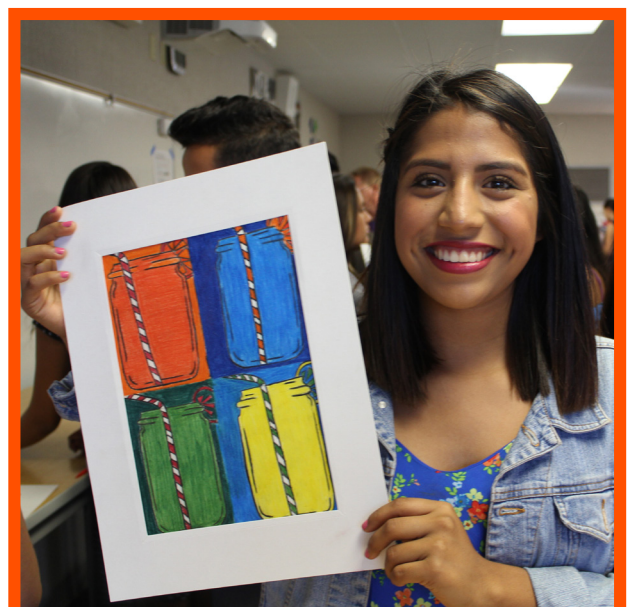

Yes. During the selection process, companies will have the ability to interview students with certain credentials, qualifications and/or skill sets.

Q5. What type of companies, industries or job functions are you looking for to host interns?

As a school with a STEAM (Science, Technology, Engineering, Art and Math) focus, we would love for our students to have opportunities to intern in those areas! We are open to companies in other areas as well.

Q6. What are the benefits to my company of hosting an intern?

By hosting students interns, companies get exposure to talent early in their career journey, build their brand awareness, and fill up their talent pipelines! Plus - they earn recognition for supporting education in our community.
